

electric vehicles.
there's a lot to love.

Charge@Home

The no-hassle way
to charge your
electric vehicle at home!

Love charging your EV at home up to six times faster?

Now you can—thanks to MGE's Charge@Home program.

What you get

- **A ChargePoint Home Level 2 charging station.** Faster than a standard outlet.
- **No upfront equipment or installation costs.**
- **No worries.** MGE hires a licensed electrician, stands behind their work and takes care of any ongoing charger maintenance.
- **Smartphone charging convenience.** You can monitor and manage your charge right from your phone.
- **One bill.** The monthly fee (see below) will be included in your regular MGE utility bill.
- **Cheaper charging!** Sign up for MGE's Shift & Save rate and you can save money by charging overnight when electricity costs less.

What it costs

- About \$20 a month, plus the cost of electricity.

What it takes to participate

- Be an MGE residential electric customer.
- Own the property where the charger will be installed.
- Have a suitable location to add a Level 2 charging station and electric panel access.
- Have Wi-Fi internet service (for data collection).
- Agree that MGE can view your charging information. MGE will use data to determine how to best manage the impact of charging on our distribution system. MGE will periodically manage and schedule charging sessions.

Love the convenience of charging your EV at home!

With Charge@Home from MGE.
